

Aircraft Leasing & Management

ALM specialises in lease management, aircraft remarketing and technical services. They also work on projects in an advisory capacity. ALM's customers include some of the world's best-known airlines, along with smaller operators, private investors and major banks.

BUSINESS CHALLENGES

- Disruption after their IT provider ceased trading, leaving fragmented support, inconsistent service, rising costs, and limited strategic direction.
- Gaps in cyber security, data governance, and modern cloud practices exposed the organisation to operational, compliance, and cyber security risks.
- The need to ensure its Microsoft 365 environment was secure, properly configured, and well governed before adopting Copilot.

“ TESTIMONIAL

“SCG support services and the entire onboarding team have allways exhibited the utmost professionalism, patience, and a 'nothing is too big or small attitude' towards all work we have requested of them... We could not be happier with our service so far.”

Danielle Worthington
Executive Assistant & Office Manager

KEY SOLUTIONS

- ✓ SCG implemented a fully managed IT solution, under a fixed, transparent cost model.
- ✓ Provided advanced cyber security (EDR, email filtering, MFA, monitoring, staff security awareness training), with cloud management, backup and recovery.
- ✓ To support the successful adoption of Copilot, SCG implemented a structured readiness programme across their Microsoft 365.
- ✓ SCG also provides ongoing strategic support, 24/7 monitoring of systems, and a single point of contact to streamline IT operations, reduce risk, and support long-term growth.
